35 - 40% Discount
 w/ min purchase of only 10 of any cannabinoid items
 Addit 10% Discount, over 24 items
 Mix ' Match at Discount, OK

Cheap is relative...Don't be deceived by inexpensive products with almost no active ingredients per suggested dose. You or your clients are depending upon having worthwhile products. All GSO products have active cannabinoid levels allowing for approx. 25-35 mg per suggested dose. That is 25 times some "cheap" products.

INEXPENSIVE OR FREE DOSERS: All oral products are shipped with a regular cap & a conventional dropper. A free calibrated dropper or syringe is supplied, free, w/ 24+ volume purchases.

CO2 Supercritical Fluid Extraction, multiple assays & judicious formulation results in a golden "honey oil" with no residual solvent, little plant residue & minimal additives
 Even w/ a realistic suggested daily dosage of a generous 2 x 35mg, Green Source full-size bottles are a month's supply

GREEN SOURCE will not undercut our retailers.
 YOUR retail price is OUR retail price

Easy to Identify Products, even w/o labels: GREEN Bottles & CBDButter, 15% strength; BLUE Bottles, 25%; Vaping Honey in small vials, +/- Pure "Honey Oil" (about 75% Ttl cannabinoids); Clear, Red or Red-Banded containers (exc. DMSO spray): CBD/THC blend. Small (3-5 ml) Oral products are the same price; Larger Oral containers (10-15 ml, including oral/topical spray) & CBD butter are the same price; 2g Vaping Honies (CBD or CBD/THC blend) are the same price. The only unique pricings are the 1 oz. Amber CBD Topical Spray and 2 oz. pure DMSO Spray.
